## GenAI Options

- **ChatGPT** - The OG, no Login, GPT4o feature-rich, but the paywall will kick in quickly
- **Perplexity** - Mashup of Google and ChatGPT, no Login, ads on the way, excellent research tool with links and images
- **Claude** - Best writer, email login required, upgrade option, strong AI vision component, AI with personality
- **Gemini** - Google's LLM with Google Services Integration
- **Adobe Firefly** - Image option without IP issues
- **Ideogram** - Image options, great with words, free for limited images
- **Udio** - AI music generator, lawsuit coming, use it while you can 😊
- **ElevenLabs** - High-quality text-to-AI voices as well as sound effects, limited free tier
- **STORM** - Stamford AI Research Tool, write a dissertation in minutes
- **Learn About** - Google's GenAI research experiment, think text-to-Wikipedia and then some!
- **Runway** - GenAI text-to-video creation and image to video creation, limited free tier
- **NotebookLM** - Upload docs, links, and videos to generate a podcast-style conversation with a feature-rich AI interface
- **GAMMA** - The first compelling GenAI text-to-presentation tool

## Education

- **SchoolAI** - Compelling/customizable interface for students to interact with historical and literary characters and more
- **Khanmigo** - The leading generative AI tutor

**Reader by ElevenLabs**
Exceptional AI Text Reader for Links, Files and Text Input

**Mobile Apps the Kids Are Using**

**Gauth** for AI vision as tutor or homework short cut.
*Concern: long session times and problematic reliance attachment.*

**CharacterAI** for real-time text and voice character conversations.
*Concern: easily used as a shortcut to bypass learning.*
